05 Arduino Montage

Written By: Jochen Krapf

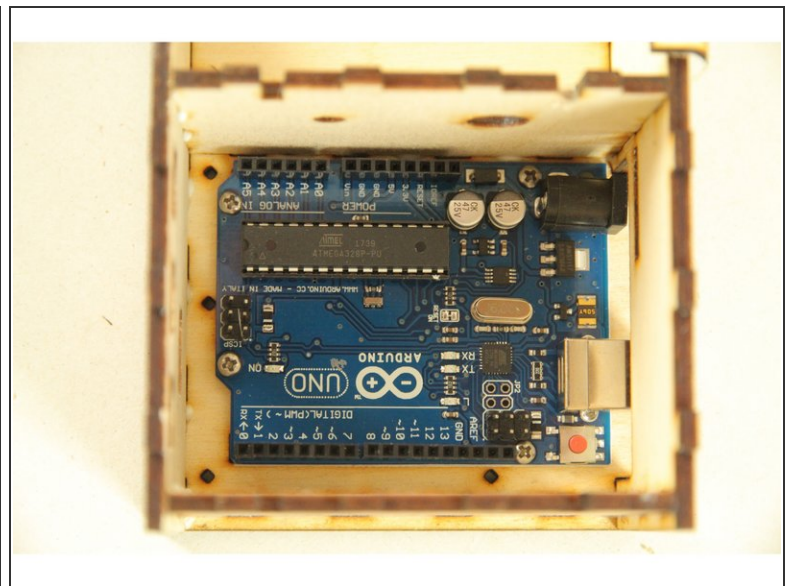

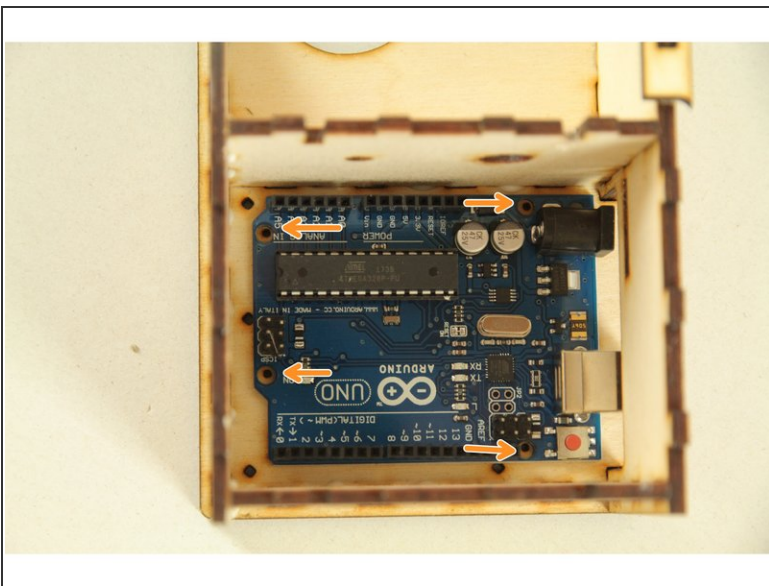

Step 1 — 05 Arduino Montage

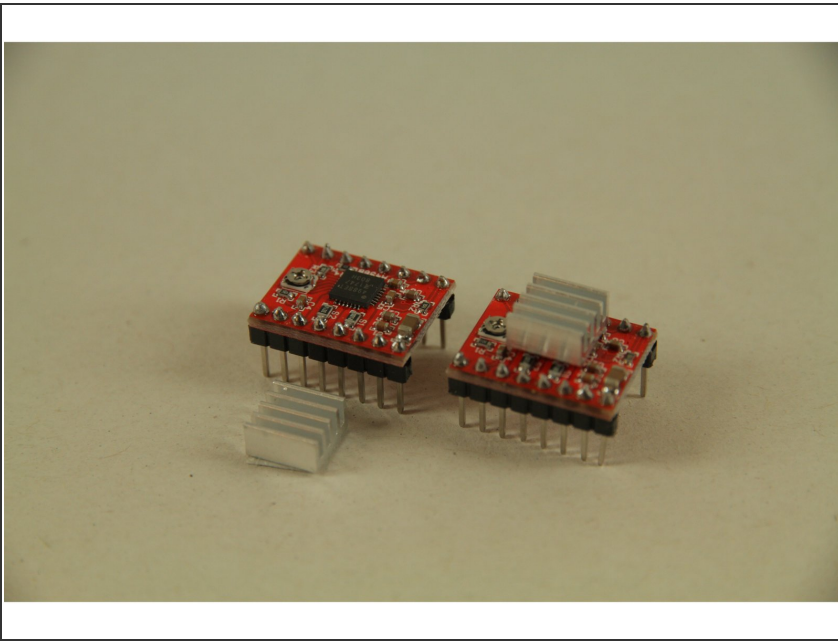

- Teile bereitlegen

Step 2

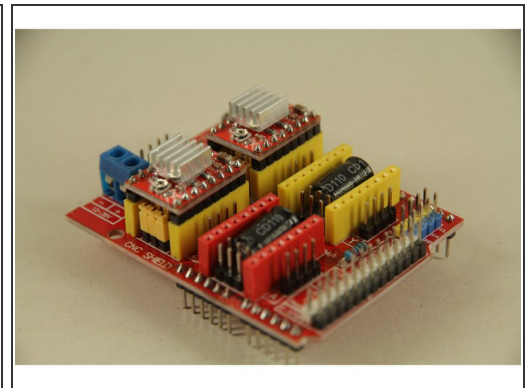

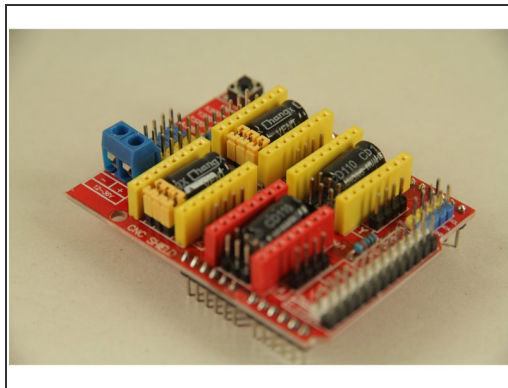

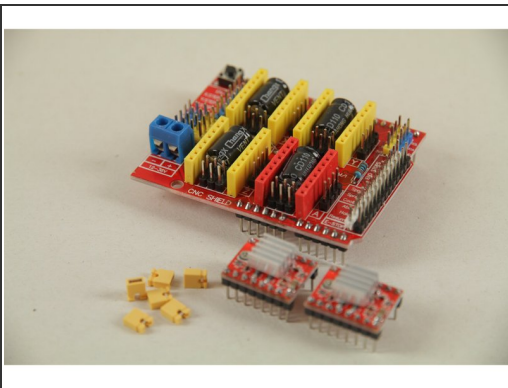

- Arduino mit Blechschrauben verschrauben

Step 3

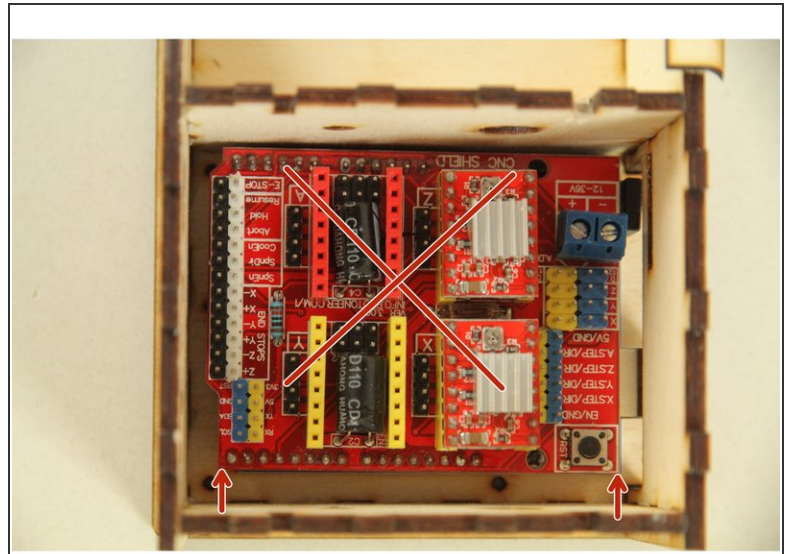

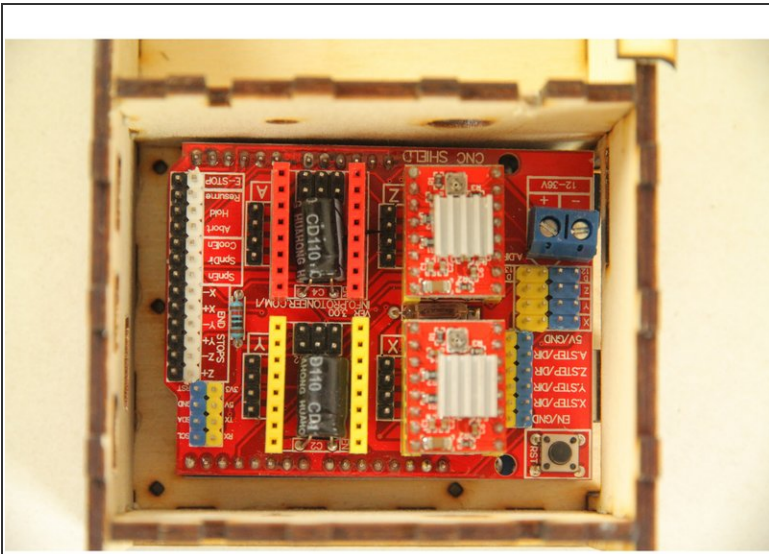

- Folie vom Kühlkörper abziehen
- Kühlkörper auf Treiber-Platinen kleben

Step 4

- Jumper einstecken
- Treiber-Platinen aufstecken
- Richtung der Treiber-Platinen beachten! Die Treiber können sonst zerstört werden!

Step 5

- Shield aufstecken
- ACHTUNG! Pin-Position beachten! Das Shield muss bündig zum Arduino sitzen!
